

CS161FZ[A] Introduction to Computer Science Lab 1

There are THREE exercises to complete.

Q1 - Printing 1

Description:

Write a Java program which prints the message `"Welcome to CS161"` exactly as shown here on screen. [Note that the inverted commas should not be printed!]

Sample Output:

```
Welcome to CS161
```

Q2 - Printing 2

Description:

Write a Java program which prints the message `"Hello"` on one line and `"world!"` on the next line.

Sample Output:

```
Hello  
world!
```

Q3 - Printing 3

Description:

What do the following statements print?

1. `System.out.println("3 + 4");`
2. `System.out.println(3 + 4);`
3. `System.out.println(3 + "4");`

Write a Java program that contains all of the statements above to find out.
